CZAREWITZ WEAK.

Vienna, March 27.—A private telegram from St. Petersburg gives the startling information that a new succession law is being prepared, owing to the fact that the Czarowitz is in weak health.

According to reports emanating from quarters connected with the court, the Czarowitz is both deaf and dumb. Other reports describe him as suffering from microcephalus. That his mental condition is such that he can never ascend the throne of Russia and rule is a court secret that is just leaking out and is startling the monarchs of Europe, who had believed that the child of the Czar was healthy.

From the reports it is intimated that the child may never live to ascend the throne. His physical health, as well as his mental condition, is, by rumor, said to be such that he may not survive many months.

The reports have caused a sensation in Russia and may affect revolutionary movements.

GLORY TO AMERICANS
CAPT. CUTLER'S DAUGHTER SENDS HONOLULU NEWS

TELLS OF CHINESE COMMISSIONERS VISITING SEATTLE HIGH SCHOOL AND WHAT THEY SAID.

The high Chinese commissioners who not long ago passed through Honolulu en route to the mainland States to discover for themselves and for the benefit of their country the newest American wrinkles have, it would seem from the following, been endeavoring to teach as well as learn.

Captain R. D. Cutler of the American barkentine Kikikat, now in port, who is well known and popular all over the western coast and in these waters, in the last mail received a letter from his charming daughter, Miss Elizabeth Cutler, who is at present attending high school in Seattle, Washington. The letter tells the story and is as follows:

"About a week ago the Chinese Imperial Commission visited the high school. They have come over here with the object of learning all they can about our school systems and intend to introduce a new one in China.

"They came to the high school in seven autos and were received by the ends with a salute. Then they came up to the assembly hall, where two thousand of us were. As they entered the door we all rose up and remained standing until they were seated on the rostrum. We then sang 'The Star Spangled Banner.'

"Three of the Commission were introduced to us and the interpreter told us what they said.

"The Prince said that they had learned their first lesson in Seattle. They were much pleased with the reception we gave them and we wished we would all come to visit China some day.

"Finally, after the interpreter had got through acting as a mouth piece, as he called himself, he made us a little speech. He said:

"Nineteen hundred and six years ago, on a clear and starry night, over the little town of Bethlehem, under the heavenly dome, sang the celestial choir. Again, today, under the dome of the Seattle high school, sings another celestial body for we come from the celestial nation. In that time long ago the choir sang 'Glory to God in the Highest, Peace on Earth, Good Will Toward Men.' Now we say 'Glory to the Americans in the West, Peace in China and Good Will Toward All.' Twenty-five hundred years before the Christian era China had a civilization worthy of notice today. We have invented the gunpowder you have taken and used to shoot us down. With the compass you have hurried your trans-Pacific liners across to us with missionaries which we did not want or need. We had the doctrine of that great and good man Confucius and I think if the people of this great and good country would only read some of his teachings they would learn many things. Now I thank you for your kind attention and may the great God be with you."

ENGINEERS' MEETING

At the last business meeting of the Honolulu Engineering Association, the regular meeting night was changed from the third Monday of the month to the second Thursday, time 8 p. m. This change brings the next regular meeting on the evening of April 12th, at which time a large and enthusiastic attendance is expected. The attraction is to be a paper on "Cable Laying and Repairing," which is to be read before the association by Capt. Basil C. Combe, commander of the cable repair ship Restorer. J. D. Gaines, the local head of the Pacific Commercial Cable Co., will handle the electrical and instrument end of the subject.

The Honolulu Engineering Association has become imbued with new life and bids fair to fulfill its destiny, that of being Hawaii's representative engineering body. The Territory, city and community generally has need of such an organization and it should have the hearty support of the plantation and engineering interests.
